Quickly Make Schedule Changes with One Easy Mouse Click

MultiPath's user-friendly administration software allows you to easily manage the changing needs of your voice communication system — whether the needs change daily, weekly, monthly, or annually! System configuration is easily tailored to a particular buildings specific need or to the entire facility need for quick and fast adjustments to schedules, department moves or room changes.

SCHEDULING
Eight schedules can be created that will run automatically or can be manually controlled. Additional schedules may be archived on your PC or network.

MUSIC DISTRIBUTION
Three program inputs may be activated simultaneously from the Administrators PC to distribute music or .wav files.

SCHEDULE CHANGES
Scheduling is managed on-site, or off-site and can be set in advance for an entire year or easily modified in seconds.

TIME ALERT TONES
1024 possible tone events, your choice of tones and unlimited schedule storage combine to provide the ultimate in flexibility.

CAMERA & DOOR CONTROL
Software programmable features allow easy activation of cameras and doors via the telephone or may be automated per your requirements.

DEPARTMENT CHANGES
Update staff changes through the software.
