

# West Pier's Reward Scheme

West Pier Telecom is offering all businesses who currently use an Avaya or Nortel phone system, the chance to upgrade to the award-winning Avaya IP Office 500 at a reduced price.

## So what exactly is the offer?

In conjunction with West Pier's partner Avaya, who is recognised as number one in the world for unified communications, your business will save £50 off per phone extension towards a new Avaya IP Office 500 phone system.

For example, a business that has 100 phone extensions is entitled to save £5,000 off a new phone system.

## What are the benefits of an Avaya IP Office phone system?

**Flexibility** - combining voice, video and mobile capabilities, the Avaya IP Office offers flexibility by ensuring that you are able to receive a phone call on any device, anywhere and at any time.

**Supports multiple users** – the Avaya IP Office is perfect for all businesses of all sizes as it can support between **10 and 2500** users at up to **150** locations.

**Cost-effective** – not only is the IP Office recognised as no.1 as an integrated telephone system but it is **25% less expensive** to own and manage than its competition.

**Built-in resiliency** - in the event of a disruption to your phone system, business continuity is assured as all telephone calls are either transferred over the internet to another site, or calls are delivered to the same site on a separate network through different channels.

**Seamless call routing** – keeping your call costs down, the IP Office can enable a single employee to manage all calls for multiple sites, ensuring that inbound calls reach the right person quickly and efficiently.
